- ✓ 100% mobile
- ✓ Ideal for small to medium-sized imprint areas
- ✓ Max. imprint size: 65 × 12.7 mm (W x H)
- ✓ Versatile imprint options
- ✓ Up to 4 print images can be stored

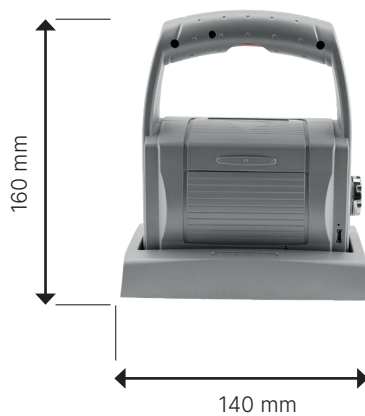

The compact professional for mobile direct marking

Handy and easy to program – the jetStamp graphic 970 mobile inkjet printer enables fast and precise marking of documents and products.

The specially developed ink allows printing on a variety of materials. This results in perfect, machine-readable labeling.

In the event of longer breaks, a seal in the station prevents the ink from drying out. Thanks to its mobility, the jetStamp graphic 970 can be integrated into the process chain exactly where it is needed.

The required print images can be created quickly and easily on a PC and transferred via USB or Bluetooth. Up to four stored print images can be conveniently selected using an adjustment wheel – for optimized workflows and time savings.

Technical specifications

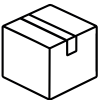

Feature	Specification
Printing technology	Inkjet (TIJ)
Imprint contents	Numbers, date, time, text, sequential 1D code, 2D code, graphic
Max. impression size (W × H)	65 × 12,7 mm
